

**Job Title:** Faculty Positions  
**Department:** Division of Life Science  
**Job ID:** 3094

### Job Posting Details

The Division of Life Science at The Hong Kong University of Science and Technology seeks applications for tenure-track positions at ranks of Assistant Professor and above. We are particularly interested in candidates studying molecular mechanisms related to aging, cancer and stem cell biology. Candidates whose research programs complement or enhance the existing strengths of the Division will also be considered.

*Applicants should have a doctoral degree and preferably at least 2 years of postdoctoral experience. They will be expected to establish an independent and internationally recognized research program and to contribute to the missions of the Division in undergraduate and graduate education. The Division of Life Science ([life-sci.ust.hk](http://life-sci.ust.hk)) currently has 40 faculty members working in diverse research areas. The University has a vibrant research environment and is ranked as one of the top universities in Asia. New faculty is provided with competitive start-up funding. The medium of instruction is English.*

Starting salary (with full 12-months' coverage) will be commensurate with qualifications and experience. Fringe benefits including medical and dental benefits, annual leave and housing will be provided where applicable. Initial appointment will normally be on a 3-year contract. A gratuity will be payable upon successful completion of contract.

### Application Procedure

Application materials including a cover letter, curriculum vitae, research proposal (maximum 3 pages), teaching statement (maximum 1 page), and contact information of three referees should be sent to the Chair of Life Science Search and Appointments Committee ([lifssearch@ust.hk](mailto:lifssearch@ust.hk)). Review of applications will start in November 2016.

*(Information provided by applicants will be used for recruitment and other employment-related purposes.)*
