

Apr. 8th 2015

The research group of Dr. Kai Liu at the Division of Life Science, The Hong Kong University of Science and Technology would like to invite applications for joining the lab. Our lab is interested in the mechanisms of axon regeneration in the central nervous system.

Applicants should have a PhD degree (for Research Associate) received within a year, or an MPhil/MS degree (for Research Assistant) in biological sciences or related disciplines. Applicants are required with extensive working experiences on electrophysiology, either in vitro or in vivo. Priority will be given to applicants with first-author publications.

Salary is highly competitive, and will be commensurate with qualifications and experiences by the institute scale. Fringe benefits including annual leave and medical benefits will be provided where applicable.
