

THE HONG KONG UNIVERSITY OF SCIENCE AND TECHNOLOGY

Division of Life Science

Research Assistant

(Duration: 1-year contract, renewable)

The appointee will support research on genetics, molecular and cell biology of fat storage, using the nematode *C. elegans* as a model organism, in Dr. Ho Yi MAK's laboratory. The appointee will lead and assist ongoing research activities, train junior laboratory personnel, and maintain communal equipment. Applicants should have demonstrated competence in prior research experience, excellent written and verbal communication skills, and the ability to work in a team-oriented environment.

Applicants should have a master's or bachelor's degree in biology, biochemistry, chemistry, or a related field.

Starting salary will be commensurate with qualifications and experience. Fringe benefits including annual leave, medical and dental benefits will be provided.

Application Procedure

Application Procedure

In support of a green work environment, we accept applications submitted online only. To apply, please complete an online application form through the HKUST Careers website (<http://jobs.ust.hk>) and return it online to the Human Resources Office. Applicants will receive an acknowledgement by email upon successful submission. We thank applicants for their interest, but advise that only shortlisted candidates will be notified of the result of the application.
